Title: Catch the Wave or Drown, What Long-Term Care Facilities Need to Succeed Today
Senior citizens are living longer, healthier lives and demanding active environments instead of custodial care. Dramatic demographic changes are taking place. As Baby Boomers become Seniors, they demand a whole new approach to all types of facilities for senior living. The panel will feature a study by LarsonAllen, CPAs, Consultants & Advisors, spelling out what these changes mean to providers of long-term care.

Seminar # 1

Title: Becoming an Alzheimer's Whisperer Through Loving Communication (Intermediate)
Becoming an Alzheimer's Whisperer entails the ability not only to understand but also to enter the world of the person with Alzheimer's disease, and once in this world to be able to

interact in a way that validates the individual and her/his experiences. The Theory of Retrogenesis provides a framework that allows us to enter the world on the person with Alzheimer's disease. But more than this is needed if we are to become Alzheimer's Whisperers. We need to think differently and we need to communicate differently. This presentation provides an overview of the basics of Becoming An Alzheimer's Whisperer; a review of the Theory of Retrogenesis along with the stages of Alzheimer's disease with the corresponding cognitive level for each stage. However the focus of the presentation is on developing the communication skills of an Alzheimer's Whisperer.

Presenter: Verna Benner Carson, Ph.D., APRN/PMH

2:15pm – 4:15pm – Legends 2

Seminar # 4

Title: Where are my Medications?

This presentation meets the states requirement for preventing medical errors. It was developed to provide ALF managers with information they need to know when ordering medications for their residents. Give the facility a list of what needs to be sent to the pharmacy for timely delivery of medications. How Medicare Part D has changed how the pharmacy is able to respond to your requests for medications. What an MOR can tell you about the medication. What systems have been developed by pharmacies to assist facilities with medications. What causes errors with medications, what errors need to be reported, and how to prevent errors from occurring.

Presenter: Jim Vett Pharm.D
Vanguard Advanced Pharmacy Systems

2:15pm – 4:15pm – Legends 1

Seminar # 5

Title: FLSA Minefields Await the Unwary Long-Term Care Employer

Long-term care employers are squarely in the cross-hairs of the Wage & Hour Division of the DOL. The Wage and Hour Division of the U.S. Department of Labor, which administers and enforces the Fair Labor Standards Act, hasn't exactly waged war on the long-term care industry, but it has come close. In the late 1990s and early 2000s, Wage/Hour singled out "nursing homes" and "group homes" for an unprecedented audit of compliance with the FLSA's minimum wage, maximum hours (overtime) and Child Labor Laws. Long-term care was targeted in large because of the perceived presence of a large number of "low wage workers" and a suspicion that there may have existed substantial non-compliance with the Act.

3:30pm – 4:30pm – Ballroom E

Seminar # 6

Title: Thanks for Taking Care of My Mom, Now I am Going to Sue You!

This seminar will address a common experience of those who work in long-term care. After months, or even years, of providing care to a resident, their family sues, without warning. Despite entrusting their loved ones to you, the family now claims the care was awful and you are to blame for their relative's demise. Donna and Aaron will explain how and why family members end up at a Plaintiff's lawyer's office looking to sue a facility. With this information, they will provide practical tips that you can implement in your facility to prevent lawsuits, and to help with your defense when you are sued.

Title: 7 Policies That Create WOW!

Research has validated the correlation between service excellence and employee satisfaction. There is no doubt that the parallel between the two is no coincidence. It is no wonder that world-class organizations like the Mayo Clinic, Southwest Airlines and Disney receive high satisfaction scores from both employees and customers. This session was developed to clarify the essential policies that need to be initiated, standardized and enforced to create an environment of engagement and service excellence. These policies will help you-brand your healthcare services so that you can join the ranks of the world-class. Don't miss this high energy, high content session that will take your organization to the next level.
